

Physicians Caring for Texans

## TexMed 2020 Saturday Agenda

### Wound Care

*Presented by the American College of Hyperbaric Medicine under the direction of Jayesh Shah, MD, San Antonio*

**Saturday, May 2, 2:30-5 pm**  
**Fort Worth Convention Center**

2.50 AMA PRA Category 1 Credits™ (requesting)

TBD ETHICS

TBD AAFP Prescribed Credits

#### Objectives

Upon completion of this program, participants should be able to: (1) review general principles of wound care management that can be applied in Office Setting; (2) improve outcomes by reducing major amputations and increasing quality of life, but also reduce costs related to complications; (3) describe the risk factors for and the pathophysiology of pressure ulcers; (4) identify evidence-based advanced wound care practice guidelines and new generation wound care products that can be immediately translated into clinical practice; (5) recognize preventive recommendations for diabetic wound management such as those for adequate glycemic control, periodic foot inspection, and patient and family education; and (6) identify animal bite wounds using key features of their appearance and presentation.

#### Target Audience

Physicians, residents, and other health care professionals in all areas of practice

#### Welcome and Introductions

**2:30-3:30 pm**      **The Alphabet Soup of Wound Healing**
